DETAILED ACTION

Allowable Subject Matter

Claims 1-7 and 15-18 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-8, the prior art alone or in combination does not teach the limitation of a thin film capacitor comprising: a first polymer film comprising an electrically conductive polymer located on a substrate, a pentoxide layer selected from the group consisting of tantalum pentoxide or niobium pentoxide located on a surface of the first polymeric film, and a second polymeric film comprising an electrically conductive polymer located on a surface of the pentoxide layer.

With respect to claims 15-18, the prior art alone or in combination does not teach the limitation of a method for making a thin film capacitor comprising the steps of: applying a first electrically conductive polymer located on a substrate, applying a pentoxide layer to the polymeric conductive layer and applying a second electrically conductive polymer located on the pentoxide layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation Relevant of Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Application/Control Number: 10/801,324 Page 3

Art Unit: 2831

a. Aoki et al. (US 6,566,421) disclose temperature compensating thin film capacitor and electronic device.

- b. Murata et al. (US 6,552,384) disclose thin film capacitor element and electronic circuit board.
- c. Kohara et al. (US6,212,057) disclose flexible thin film capacitor having an adhesive film.
 - d. Anderson et al. (US 5,978,207) disclose thin film capacitor.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nguyen T Ha whose telephone number is 571-272-1974. The examiner can normally be reached on Monday-Friday from 8:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on 571-272-2800 ext. 31. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

Art Unit: 2831

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
